

Senior Clinical Research Associate

The Clinical Research Associate performs routine site visits to ensure that the rights and well-being of human subjects are protected; the reported trial data are accurate, complete, and verifiable from source documents; and that the conduct of the trial is in accordance with the currently approved protocol/amendment(s), SOPs, GCP/ICH Guidelines and other applicable regulatory requirements. In doing this, the Clinical Research Associate represents Omeros to site personnel and colleagues with professionalism and integrity.

Essential Duties and Responsibilities

- Designs, plans and implements the overall direction of clinical research projects.
- Evaluates and analyzes clinical data.
- Perform routine site visits, including pre-study, initiation, interim, and closeout visits.
- Visits to include monitoring of proper informed consent procedures, compliance with protocol, GCP/ICH Guidelines and other applicable regulatory requirements, and assurance of good site performance.
- Complete of monitoring reports and follow-up letters within the project-specific timelines.
- Maintain project tracking system of subject and site information.
- Perform necessary administrative functions (e.g., tracking of expense reports, time and attendance).
- Perform other duties as assigned.

Qualifications

- Bachelor's level degree in life sciences, pharmacy, nursing or RN preferred
- Five to eight years clinical monitoring experience
- Knowledge of Good Clinical Practice/ICH Guidelines and other applicable regulatory requirements
- Ability to work independently in a fast-paced environment
- Strong communication, interpersonal, and organizational skills
- Must demonstrate good computer skills
- Position requires 3 to 4 days travel per week
